

# Core Strength and Stability

This program is designed to strengthen and condition the large stabilizing muscles of the core. Begin with 10-12 repetitions that can be executed with good form. If you feel unable to maintain your form in your set, lower the level of incline. Perform 1-3 sets at a slow, controlled speed. Take rests as needed. Once you successfully perform more than 12 repetitions, raise the level of incline. Perform this routine 2-3 times per week alternating between workout options #1 and #2.

## Workout Option #1

Date	Card #	Exercise Name	Resistance Level	Reps	Sets
	<b>56</b>	Pullover with Crunch			
	<b>57</b>	Oblique Pullover Crunch
